iPad® POS

Internet

Barcode Readers

WiFi

Wired connection

AsReader® POS-Type

Printers

RFID Readers

WiFi

WiFi

---

1 "Wired" RFID Reading/Writing

RFID can be controlled from a hard-wired connection.
This allows the highest-quality, most stable operation and NO Bluetooth hassles.

2 "Wired" Barcode Scanning

USB ports, in addition to Lightning® connection allow you to add wired-barcode scanners, printers, and more!
Barcode scanners can now be wired to an iPad®.

3 "Wired" Network

A hard-wired connection to your Network via POE Ethernet.
This eliminates the instability and security concerns from WiFi for your critical connections.

4 No more overcharging the iPad®

Normally, overcharging an iPad® can lead to bloating the battery!
With our special technology included in this package, you can control it, so it doesn't overcharge.

WiFi To use WiFi To add Wireless devices, simply attach the POS-Type to WiFi via its Ethernet port.
Then your mobile devices can connect to the RFID Readers, Barcode Scanners, Printers, and more!
